

Sample Proposal

Prepared By: Ayesha

Role: Business Development Intern

Project Details:

Project Name: WordPress Website Recovery Proposal

Project Category: Website Support & Maintenance

About This Sample

This document is a sample proposal included in my portfolio to demonstrate my proposal writing and business development skills. The proposal follows the same structure I used while preparing client proposals during my internship.

Sample Proposal

Hi,

You need a WordPress expert to diagnose your website outage, identify the root cause, and restore the site quickly and securely.

From my understanding, the project involves investigating hosting, database, WordPress files, plugins, SSL, and DNS settings to get the website back online and prevent future issues.

Based on the project requirements, I can provide a structured approach to identify the root cause, restore the website, and ensure it runs smoothly and securely.

My approach includes:

- Diagnosing the root cause of the outage
- Fixing hosting, database, DNS, or WordPress issues
- Testing functionality across devices and browsers
- Providing a summary report and recommendations

My expertise includes WordPress, PHP, MySQL, DNS, panel, and Website Management.

Relevant Company Work:

- <https://caddrafter.us/>
- <https://nedes.us/>

I'd be happy to start immediately and restore your website.

Best regards,

Ayesha

Skills Demonstrated Proposal Writing

- Requirement Analysis
- Bid Management
- Client Communication
- Solution Presentation
